

Product Description

Hydraulic damping lifting socket, located in the high-end product of the home lifting socket industry, adopts hydraulic damping design. Equipped with automatic lifting, anti collision, and anti pinch performance, waterproof and dustproof, using high-strength tempered glass surface. The design of the board, internal drainage structure, and safety protection door, waterproof, flame retardant, and fully in place, and the process is crafted with wire drawing aluminum alloy, visible to the naked eye for appearance texture. The top panel adds wireless charging function, with a multi-color combination, making it light and luxurious. Experience, one click enjoyment.

Product parameters

Product name	Hydraulic lifting socket
Product Model	ZNYY-05 / ZNYY-06
Lifting method	Hydraulic damping lifting
Table top opening	10cm
Voltage range	110V~220V~
Rated current	10A
Rated power	MAX 2500W
Housing material	Aerospace aluminum alloy
Panel material	Tempered Glass Panel

Product features

Hydraulic damping lifting

Wireless charging

USB port

Fast charging interface

Water and dust resistant

Modular

Functional description& installation instructions
